

## GEOGRAPHICALLY DIVERSE DATA CENTERS

### Dallas Infomart

Primary Data Center

Diverse-path fiber from numerous carriers

Multiple power substation feeds

300M kWh uninterrupted power

### Flexential

Las Vegas Lone Mountain Redundant Data Center

Power Usage Effectiveness (1.2 PUE),  
lowest of any colocation facility in the industry

Designed to be concurrently maintainable and fault tolerant

Lowest risk of natural disaster of any major U.S. city

## INFRASTRUCTURE

Scalable Enterprise Storage Platform

Utilizing 40GB internal network backbone

Dell Servers and HP Blades

Supporting HYPERVISORS: VMware and Hyper-V
