

# Why Global Data Vault?

- 1 We believe Backup is not enough because file or VM recovery is always too slow. Customers need a way to recover remotely, which is why we always include a recovery environment.\*
- 2 Our Fully Managed Solution is focused on **quality**, which we define as meeting your Service Level Agreements (SLAs) for Recovery Time and Restore Points.
- 3 GDV is **100% Veeam-focused**.
- 4 GDV has a deep level of Veeam expertise and has been certified by Veeam for several core competencies.
- 5 We support VMware, Hyper-V, Nutanix, Physical Windows/Linux servers and blended environments.
- 6 Our Automated Build Process assures **fast restore** times.
- 7 Our health tests include alerts along with ping and heartbeat testing for low memory, low disk space, antivirus or fire wall problems.
- 8 GDV provides **fixed, simple pricing**.
- 9 Our secure, high-spec data centers in Dallas and Las Vegas meet your **compliance** requirements.

\*With other providers, Cloud Connect is only a backup solution.

# Global Data Vault Solution Guide

## 3-2-1 Rule and We're the 1

Features	DRaaS	Replication	O365
<b>DRaaS</b> - Veeam Cloud Connect - Enables full site recovery in our data centers from Cloud Connect, which is more cost effective than replication. Includes a backup repository.	X		
<b>Proactive Support</b> - Focused on your protection status.	X	X	X
<b>Bylift/Log Rhythm</b> - Backup and security are intertwined at GDV.	X	X	X
<b>GDV extends its security perimeter</b> to the local backup repository for maximum protection.	X	X	X
<b>Ransomware</b> - Enhanced Data Protection - This is our proprietary insider protection against ransomware without the extra storage cost.	X	Included with DRaaS	
<b>Daily Emails</b> - Proactive communication shows current local and remote restore points.	X	X	
<b>Single Pane Web Portal</b> - Live 24/7/365 via desktop or mobile devices, protection vs SLA.	X	X	
<b>Local and Remote Recovery</b> - RTO 4 hours and RPO 8 business hours.	X	X	X
<b>White Glove Onboarding</b> - Side-by-side effort with your team.	X	X	
<b>Annual DR Testing</b> - Automated and documented.	X	X	
<b>Replication</b> - RPO/RTO as short as 15 minutes depending on bandwidth.		X
